IBRAHIM MOHAMMED

General Practitioner, Health Informatics Lead & AI Domain Expert

Global Remote (UTC+1 | US EST/PST & EMEA Overlap) • Warri, Delta State, Nigeria
Email: ibrahimmohammedevuti@gmail.com • Tel: +1-814-713-2665, +234-070-3255-3907

PROFESSIONAL SUMMARY

Multidisciplinary **General Practitioner, Health Consultant, and Lead Technologist** blending extensive clinical experience in primary care, epidemiology, and chronic disease management with an **MSc in Computer Information Systems** and a **BSc in Network Security**. Proven expertise in **AI auditing, health informatics, electronic health record (EHR) optimization, and diabetes telemetry integration**. Adept at evaluating clinical AI/LLM outputs for diagnostic accuracy, authoring evidence-based medical rubrics, identifying clinical hallucinations (RLHF), and aligning healthcare delivery with modern cybersecurity and enterprise software standards.

CORE COMPETENCIES & AI DOMAIN KEYWORDS

- **AI Auditing & Clinical Evaluation:** AI Auditing & Model Evaluation, Reinforcement Learning from Human Feedback (RLHF), Clinical Reasoning Verification, Medical Hallucination & Factuality Auditing, Prompt Engineering & Reference Authoring, Healthcare Quality Assurance (QA).
- **Clinical Medicine & Public Health:** General Practice & Differential Diagnosis, Evidence-Based Preventive Care, Chronic Disease Management, Diabetes Technology (Continuous Glucose & Ketone Monitoring), Emergency Triage (ACLS, PALS, BLS), Epidemiology & Behavioral Health.
- **Health Informatics & Systems Engineering:** Electronic Health Records (EHR) Optimization, Telehealth & Digital Health Integration, System/Web/App Development, Network Security (CEH), Cloud Services, PMP & ITIL Governance, ISO & CMM Quality Standards, UI/UX Workflow Design.

PROFESSIONAL EXPERIENCE

Health Consultant & Clinical Informatics Lead | Emeis Care
2023 – Present

- Provide strategic health consulting, patient advocacy, digital health technology integration, and **AI auditing** across clinical workflows.
- Advise on evidence-based preventive care, chronic disease management, telehealth initiatives, and **Electronic Health Record (EHR)** optimization to enhance diagnostic accuracy and care continuity.
- Deliver clinical domain expertise to evaluate health informatics pipelines, verify automated clinical decision support protocols, and align healthcare service delivery with patient-centered care standards.

General Practitioner & Medical Software Lead | White Royal Clinic **2019 – 2023**

- Conducted comprehensive clinical diagnostics, differential patient assessments, acute emergency medical care, and personalized treatment plans across diverse patient demographics.
- Integrated modern **diabetes technology (continuous glucose and ketone monitoring systems)** and evidence-based preventive care strategies into primary healthcare workflows.
- Directed clinic administration, **medical software integration**, and **healthcare quality assurance (QA) protocols** to improve operational efficiency, data integrity, and longitudinal patient outcomes.

EDUCATION

MSc. in Computer Information Systems | Boston University **2016**

Major: Computer Information Systems • Graduated with Honors

BSc. in Network Security | Derby University **2015**

Major: Network Security (GPA: 3.6) • Developed secure network protocols and led a team project on cybersecurity.

Bachelor in Health Science (BHS) | University of the People **Graduated with Honors**

Major: Health Science, Community Health, and Epidemiology

LICENSURES & PROFESSIONAL CERTIFICATIONS

- **Healthcare & Clinical Licensures:** General Practitioner (GP) License, Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), Basic Life Support (BLS), CPR & AED, Community and Public Health (CPH), Epidemiology, Behavioral Health.
- **Technology, Security & Management:** Project Management Professional (PMP), Certified Ethical Hacker (CEH), ITIL Certification, CompTIA A+, Microsoft Certified Systems Engineer (MSCE), Capability Maturity Model (CMM), ISO Compliance, UI & UX Certification.

CONTINUING MEDICAL EDUCATION (CME) & SPECIALIZED CLINICAL FOCUS

- **Diabetes Management & Medical Telemetry:** Integrating Diabetes Technology (Ketone and Glucose Monitoring Systems) into Primary Care.
- **Preventive & Specialty Medicine:** Factor XIa Inhibitors in Stroke Prevention, Breast Cancer Care 2025, Autoimmune Disorders (Myasthenia Gravis), Lung Cancer in Scleroderma, Migraine Stigma & Care, Pregnancy Planning & Contraception Counseling.
